Merge two sorted linked lists and return it as a new list.  
The new list should be made by splicing together the  
nodes of the first two lists, and should also be sorted.

For example, given following linked lists :

```
5 -> 8 -> 20
4 -> 11 -> 15
```

The merged list should be :

```
4 -> 5 -> 8 -> 11 -> 15 -> 20
```
